## Projects

1. Cookerya - Offline Recipe Management App

[Click here to view](#)

Android | Java | XML | SQLite

Project Type: In-house Academic Project (College Lab)

MCA Semester III (Aug 2025 - Oct 2025)

Cookerya is an offline-first Android app that helps users manage, plan, and organize recipes on their device. All data — users, recipes, likes, saved items, planned meals & notifications — is stored locally in SQLite, ensuring privacy and accessibility without internet.
2. TATHASTU - The Donation App

[Click here to view](#)

Android | Java | XML | Firebase | Razorpay | REST API | GitHub

Project Type: In-house Group Academic Project

BCA Semester VI (Dec 2023 - Feb 2024)

TATHASTU is a donation management Android application designed to connect Donors, NGOs, and Needy individuals. The app focuses on simplifying donation requests, improving transparency, and enabling help to reach those who truly need it.
3. EMI Calculator - Financial Tools Android App

[Click here to view](#)

Android | Java | XML | REST API | Material Design

Project Type: Enacle Infotech (Internship Project)

Mar 2024 (1 Week)

A compact Android application (Java) that bundles several financial calculators and related utilities. All core features are local (app-side) implementations — no server backend or admin panel is included.

## Internship / Experience

1. Android Development Intern - Enacle Infotech

Mar 2024 - April 2024 (1 Month)

Worked on Android UI layouts, Java-based logic, and understanding real-world app development workflows.

## Certifications & Training

1. MNC Employability Enhancement Skills Program

July 2023 - Sep 2023 (3 Months)

Sutex Bank College of Computer Application & Science, VNSGU
2. Flutter Development Training

Dec 2023 - Feb 2024 (3 Months)

Sutex Bank College of Computer Application & Science, VNSGU
