## Projects :

1

### Tathastu - The Donation App

(BCA Final Year Project) (On going)

- "One step towards donating & helping those in need"
- Empower change with my versatile donation app, offering a platform to contribute to various causes like food, blood, and education. Users can donate funds, participate as volunteers, and discover ongoing campaigns. The app ensures security and privacy across three panels: Donor, Admin, and NGO. Additionally, it provides essential helpline numbers and NGO details, fostering a collaborative and impactful giving experience.

2

### SoulFinder - The Matrimony App

(BCA 5th Sem Project) (Small Scape)

- A secure matrimony app where users can confidentially add personal information and upload biodata, ensuring privacy and security. Explore other profiles, update your details, and find your soulmate effortlessly. Admin oversight guarantees a safe and genuine platform, making SoulFinder the perfect destination for meaningful connections in a compact Android Java application.
